

You know you've had too much coffee when...

You can type sixty words a minute with your feet.
Instant coffee takes too long.
You chew on other people's fingernails.
You answer the door, before people knock.
You sleep with your eyes open.
You go to sleep, just so you can wake up and smell the coffee.
You don't even wait for the water to boil anymore.
You're the employee of the month at Starbucks and you don't even work there.
You lick your coffeepot clean.
You go to AA meetings just for the free coffee.
You're so wired you pick up FM radio.
You have a picture of your coffee mug, on your coffee mug!

One of the fringe benefits of being an English or History teacher is receiving the occasional jewel of a student blooper in an essay. I have pasted together the following "history" of the world from certifiably genuine student bloopers collected by teachers throughout the United States, from eight grade through college level. Read carefully, and you will learn a lot.

The inhabitants of Egypt were called mummies. They lived in the Sarah Dessert and traveled by Camelot. The climate of the Sarah is such that the inhabitants have to live elsewhere, so certain areas of the dessert are cultivated by irritation. The Egyptians built the Pyramids in the shape of a huge triangular cube. The Pyramids are a range of mountains between France and Spain.

The Bible is full of interesting caricatures. In the first book of the Bible, Guinnesses, Adam and Eve were created from an apple tree. One of their children, Cain, asked "Am I my brother's son?" God asked Abraham to sacrifice Issac on Mount Montezuma. Jacob, son of Issac, stole his brother's birthmark. Jacob was a partiarich who brought up his twelve sons to be partiarchs, but they did not take to it. One of Jacob's sons, Joseph, gave refuse to the Israelites.

Pharaoh forced the Hebrew slaves to make bread without straw. Moses led them to the Red Sea, where they made unleavened bread, which is bread made without any ingredients. Afterwards, Moses went up on Mount Cyanide to get the ten commandments. David was a Hebrew king skilled at playing the liar. He fought with the Philatelists, a race of people who lived in Biblical times. Solomon, one of David's sons, had 500 wives and 500 porcupines.

Without the Greeks, we wouldn't have history. The Greeks invented three kinds of columns - Corinthian, Doric and Ironic. They also had myths. A myth is a female moth. One myth says that the mother of Achilles dipped him in the River Stynx until he became intolerable. Achilles appears in "The Illiad", by Homer. Homer also wrote the "Oddity", in which Penelope was the last hardship that Ulysses endured on his journey. Actually, Homer was not written by Homer but by another man of that name. Socrates was a famous Greek teacher who went around giving people advice. They killed him. Socrates died from an overdose of wedlock.

In the Olympic Games, Greeks ran races, jumped, hurled the biscuits, and threw the java. The reward to the victor was a coral wreath. The government of Athen was democratic because the people took the law into their own hands. There were no wars in Greece, as the mountains were so high that they couldn't climb over to see what their neighbors were doing. When they fought the Parisians, the Greeks were outnumbered because the Persians had more men.

Then came the Middle Ages. King Alfred conquered the Dames, King Arthur lived in the Age of Shivery, King Harlod mustarded his troops before the Battle of Hastings, Joan of Arc was cannonized by George Bernard Shaw, and the victims of the Black Death grew boobs on their necks. Finally, the Magna Carta provided that no free man be hanged twice for the same offense.

In midevil times most of the people were alliterate. The greatest writer of the time was Chaucer, who wrote many poems and verse and also wrote literature. Another tale tells of William Tell, who shot an arrow through an apple while standing on his son's head. The Renaissance was an age in which more individuals felt the value of their human being. Martin Luther was nailed to the church door at Wittenberg for selling papal indulgences. He died a horrible death, being excommunicated by a bull. It was the painter Donatello's interest in the female nude that made him the father of the Renaissance. It was an age of great inventions and discoveries. Gutenberg invented the Bible. Sir Walter Raleigh is a historical figure because he invented cigarettes. Another important invention was the circulation of blood. Sir Francis Drake circumcised the world with a 100-foot clipper.

The greatest writer of the Renaissance was William Shakespear. Shakespear never made much money and is famous only because of his plays. He lived in Windsor with his merry wives, writing tragedies, comedies and errors. In on of Shakespear's famous plays, Hamlet rations out his situation by relieving himself in a long soliloquy. In another, Lady Macbeth tries to convince Macbeth to kill the King by attacking his manhood. Romeo and Juliet are an example of a heroic couplet. Writing at the same time as Shakespear was Miquel Cervantes. He wrote "Donkey Hote". The next great author was John Milton. Milton wrote "Paradise Lost." Then his wife dies and he wrote "Paradise Regained."

One of the causes of the Revolutionary Wars was the English put tacks in their tea. Also, the colonists would send their parcels through the post without stamps. Delegates from the original thirteen states formed the Contented Congress. Franklin had gone to Boston carrying all his clothes in his pocket and a loaf of bread under each arm. He invented electricity by rubbing cats backwards and declared "a horse divided against itself cannot stand." Franklin died in 1790 and is still dead.

Abraham Lincoln became America's greatest Precedent. Lincoln's mother died in infancy, and he was born in a log cabin which he built with his own hands. When Lincoln was President, he wore only a tall silk hat. He said, "In onion there is strength." Abraham Lincoln write the Gettysburg address while traveling from Washington to Gettysburg on the back of an envelope. Bach was the most famous composer in the world, and so was Handel. Bach died from 1750 to the present. Beethoven wrote music even though he was deaf. He was so deaf he wrote loud music.

During the Napoleonic Wars, the crowned heads of Europe were trembling in their shoes. Queen Victoria was the longest queen in England. She sat on a thorn for 63 years. He reclining years and finally the end of her life were exemplary of a great personality. Her death was the final event which ended her reign.

A businessman entered a tavern, sat down at the bar, and ordered a double scotch on the rocks. After he finished the drink, he peeked inside his shirt pocket, then he ordered another double scotch. After he finished that one, he again peeked inside his shirt pocket and ordered another double scotch.

Finally, the bartender said, "Look, buddy, I'll bring you drinks all night long. But you gotta tell me why you look inside your shirt pocket before you order another."

The customer replied, "I'm looking at a photo of my wife. When she starts to look good, then I know it's time to go home."

An old man goes to the Wizard to ask him if he can remove a curse he has been living with for the last 40 years. The Wizard says, "Maybe, but you will have to tell me the exact words that were used to put the curse on you."

An old hillbilly farmer had a wife who nagged him unmercifully. From morning til night (and sometimes after), she was always complaining about something. The only time he got any relief was when he was out plowing with his old mule. He tried to plow a lot. One day, when he was out plowing, his wife brought him lunch in the field. He drove the old mule into the shade, sat down on a stump, and began to eat his lunch.

Immediately, his wife began haranguing him again. Complain, nag, nag; it just went on and on. All of a sudden, the old mule lashed out with both hind feet; caught her smack in the back of the head. Killed her dead on the spot.

At the funeral several days later, the minister noticed something rather odd. When a woman mourner would approach the old farmer, he would listen for a minute, then nod his head in agreement; but when a man mourner approached him, he would listen for a minute, then shake his head in disagreement. This was so consistent, the minister decided to ask the old farmer about it.

So after the funeral, the minister spoke to the old farmer, and asked him why he nodded his head and agreed with the women, but always shook his head and disagreed with all the men.

The old farmer said, "Well, the women would come up and say something about how nice my wife looked, or how pretty her dress was, so I'd nod my head in agreement."

"And what about the men?" the minister asked.

"They wanted to know if the mule was for sale."

An elderly woman went into the doctor's office. When the doctor asked why she was there, she replied, "I'd like to have some birth control pills."
Taken aback, the doctor thought for a minute and then said, "Excuse me, Mrs. Smith, but you're 72 years old. What possible use could you have for birth control pills?"
The woman responded, "They help me sleep better."
The doctor thought some more and continued, "How in the world do birth control pills help you to sleep?"
The woman said, "I put them in my granddaughter's orange juice every morning and I sleep better at night."

Sitting down at the typewriter, the dog types out 80 words per minute.
"Also," says the director, "you must pass a physical and complete the obstacle course."
This perfect canine specimen finishes the course in record time.
"There's one last requirement," the director continues; "you must be bilingual."
